Dear Resident:

RE:  **JOHN GLENN DRIVE SEWER REHABILITATION PROJECT**  
**City of Seven Hills**

This notice is to inform you that Lake County Sewer Company has been contracted to do some sewer cleaning, televising, testing and sealing work in your neighborhood. This work has been authorized by the City of Seven Hills per City Ordinance 142-2019.

Work is beginning on **Wednesday, February 12, 2020** and will continue for the next several months. We apologize for any inconvenience this project may cause.

**Lake County Sewer will be cleaning, televising and sealing sanitary sewer mainlines and laterals.** During the cleaning process, it is possible for splashing to occur in your toilets and for sewer odor to come from drains. We recommend the lids of toilets be closed during work to minimize splashing. If you notice sewer odor, please run clear water down your drains and open windows. The odor should go away within an hour.

You may encounter employees of Lake County Sewer Company, the City of Seven Hills and AECOM on your front lawn area in order to locate your lateral cleanout, which is located on your property. Your cooperation and patience during this period will be greatly appreciated.

Should you have any pets, such as dogs, that are usually kept outside, we request that you keep them on a leash while this project is going on.

Also, if you have a sewer cleanout access tee, which may be buried beneath your lawn, flowerbed, fence, etc., please be advised this area will be disturbed to access your lateral sewer to perform some of the required work.

If you have vehicles parked in the street by a manhole, you may be asked to move it so access may be obtained.

We certainly appreciate your cooperation and apologize in advance for any inconvenience we may cause you during this work period. If you have any questions or comments, contact the Project Manager Frank Klima (440) 585-5757 or the City of Seven Hills Engineering Department (216) 525-6258 and refer to the above-mentioned project.

Again, thank you for your patience and cooperation.

Lake County Sewer Company
